SEED GROWERS

Moreton Farm

::

::

COLDWATER, N. Y.

THE SEEDS we offer are largely of our own growing at Moreton Farm (near Rochester, N. Y.), and are of the very highest quality in every way. No better seeds can be obtained at any price.

Seeds by Parcel Post. If it is desired to have the seeds sent by mail (parcel post), postage must be added to the prices quoted. The rates according to the distance to be sent.

To places within 150 miles of Rochester the rate is 5c for first pound and 1c for each additional pound. To places more than 150 miles and under 300 miles the rate is 6c for the first pound and 2c for each additional pound.

To places over 300 and under 600 miles the rate is 7c for the first pound and 4c for each additional pound.

To places over 600 and under 1000 miles the rate is 8c for the first pound and 6c for each additional pound.

For map and postage rates see our retail catalogue.

Express rates are in most cases lower than parcel post, except for packages weighing under 10 pounds.

The seeds will be carefully packed for shipping, and will be delivered to the railroads or express companies without extra charge.

We can ship by the following railroads:

New York Central; Erie; Pennsylvania; Lehigh Valley; Buffalo, Rochester & Pittsburgh; Rome, Watertown & Ogdensburg.

We agree to assume the responsibility of the Seeds and Plants we sell reaching the purchaser in good condition, and should any Seeds fail to grow under favorable conditions, or prove not true to name, or of inferior quality, we will *refund the money paid for them* or replace them without charge, but all our Seeds and Plants are sold on the distinct understanding and with the agreement by the purchaser that we will not be liable for any loss or damage that may occur by reason of the failure of Seeds or Plants to grow or to be of the variety or quality ordered. We will not accept or fill orders on any other terms.

TERMS.

Our usual terms are cash with the order. We shall, however, be glad to open accounts with anyone of established credit, or who will send us satisfactory references.

We tell you how many Seeds will grow.

All the Seeds we sell are tested for germination, and the per cent that germinate is marked on each package or label, so that anyone can easily judge how thick to sow the Seed. This is an advantage given by no other seedsman that we know of.

Note.—Half pounds, half pecks and half bushels will be sold at the pound, peck and bushel rates.

SOME SPECIAL STRAINS

We have especially fine strains of the following varieties which we have developed after years of the most careful selection on our own farm. Gardeners will find out stocks of these varieties far superior to the seed usually sold.

BEET, Crosby's Egyptian. Our strain of this beet runs even in color and of perfect globe shape.

CELERY, French's Success. The best green celery for winter storage.

SWEET CORN, Pocahontas. Very early with ears nearly as large as Evergreen. By far the best early sweet corn we have ever grown. It produces twice as many ears per acre as Evergreen and the ears are so large and handsome they sell for the very top price in market.

SWEET CORN, Mimms' Hybrid. A large second early variety. Very prolific and of high quality.

SWEET CORN, Buttercup. A yellow sweet corn like Golden Bantam, but larger and better in every way.

CUCUMBER, Davis' Perfect. We have a very fine strain of this popular new variety.

EGG PLANT, Black Beauty. A very fine strain. Early and prolific.

MUSK MELON, Irondequoit. The very finest strain of Surprise Melon grown. Large and well netted.

MUSK MELON, Emerald Gem. We have a fine stock of this grand melon, pure and true to type.

ONION, Yellow Globe Danvers. Harris' selected strain.

ONION, Harris' Red Globe. Special selected strain of Southport Red Globe.

ONION, Southport Yellow Globe.

PARSLEY, Dwarf Perfection. The finest curled parsley grown.

PARSNIP, Harris' New Model. A very fine selection of the old Hollow Crown Parsnip. Roots are smooth, of medium length and very white.

PEPPER, Giant Crimson. Very large, mild and quite prolific for so large a pepper.

PEPPER, Harris' Earliest. The most productive and earliest sweet pepper we have ever seen.

TOMATO, New "Extra Early" Earliana. A week earlier than any other strain of Earliana we have ever tried and far superior in color.

TOMATO, Bonny Best. The finest second early variety. Our strain is extra fine.

TOMATO, Chalk's Jewel. We have a finely bred strain of this popular variety very much better in color and shape than other strains.

TOMATO, Success. Our strain of this variety is the best medium late tomato we know of. Like Stone, but earlier.

Gardeners who want the very best seeds obtainable and are willing to pay a little more for extra care and selection on the part of the grower, should try our strains of the above varieties. Prices will be found under their proper heads in the list.

We have superior strains of many other varieties not mentioned above, among these we would mention our perfected strain of **SNOWBALL CAULIFLOWER**. Although, of course, this seed is not of our own growing, it is raised for us by a specialist who takes the greatest pains in keeping this strain up to the highest possible standard. We advise gardeners to try this seed along side of other strains costing twice as much.

Among the various kinds of **CABBAGE** we would especially recommend gardeners to try our strains of Jersey Wakefield, Charleston Wakefield, Copenhagen Market, Enkhuizen Glory, All Head Early and Danish Ball Head, all of which are very fine.

CROSBY'S EGYPTIAN

BEETS

Harris' Selected Strain

Gardeners will find this the very finest strain of Crosby's Egyptian Beet obtainable. We have taken the greatest pains with this variety, raising the seed on our own farm and selecting only the very best beets for seed, and have developed a strain that produces uniformly handsome, smooth, globe-shaped beets with small tops and deep red all through, without the light colored rings so common in other less carefully grown strains. This beet grows very rapidly, and is excellent for forcing as well as for open ground.

CAULIFLOWER

NOTE—There is no reason why the very best Cauliflower seed cannot be sold at much lower prices than is charged by most seedsmen. They charge high prices because growers think if they pay \$4.00 an ounce for seed it must be better than the seed that costs \$2.00 or less. As a matter of fact the same seed that gardeners pay \$4.00 per ounce for can be sold at less than \$2.00 and still leave a fair profit to the dealer. The seed we offer is the very best that can be procured at any price.

DANISH PERFECTION CAULIFLOWER—A New and Valuable Variety

“Perfected” Snowball Cauliflower

This strain of Snowball Cauliflower produces the very finest heads and is more uniform and reliable than any other strain or variety we have tried, and we try them all side by side in our trial grounds each year. Seed that costs \$3.00 to \$5.00 per ounce produced no better cauliflower than this. In fact, we hardly see how it could be better. Practically every plant makes a beautiful snow white head that is firm and has no protruding leaves. There can be no better seed no matter what is charged for it or under what name it is sold.

Ounce $\frac{1}{4}$ Lb.

DANISH PERFECTION. A new strain of Snowball cauliflower with more leaves to cover the head, which does away with tying to a large extent. Heads very solid and without protruding leaves. (Pound, \$25.00).....

TOMATOES

HARRIS' SELECTED TOMATO SEED

Harris' Tomato Seed is becoming famous for its high quality. This is the result of many years careful work in breeding up fine strains by selecting fruit from plants that produce the best and earliest tomatoes. Our strain of the leading varieties will be found far superior to other strains sold under the same names.

	Ounce	$\frac{1}{4}$ Lb.	Pound
New EXTRA EARLY Earliana. (Langdon's strain). A selection from our stock of Earliana which ripens a week earlier than the old variety. Fruit is well colored, smooth and very solid. Will be found of great value and profit to gardeners who use it. Seed of our own growing from the best fruit only	\$.30	\$.85	\$3.25
SPARK'S EARLIANA. A really first-class strain of Earliana is far and away the best early tomato now grown. Our strain of this variety is exceptionally fine30	.85	3.25
BONNY BEST. Very early, large, smooth and bright red with no green around the stem. Not quite as early as Earliana, but much better colored. The fruit is so smooth, solid and well colored that it sells for the highest prices in market in competition with later varieties.....	.30	.85	3.25
June Pink. Very similar to Earliana except as to color, which is pink like Beauty30	.85	3.00

TOMATOES—(Continued)

SEED POTATOES

EARLY SURPRISE—A Very Fine Medium Early Potato

Our seed potatoes are grown on our own and neighboring farms from choice selected seed furnished by us and we think they are far superior to most of the potatoes sold for seed. They are pure, true to name and practically free from scab and other diseases.

Prices for Early Orders Only.—The prices here quoted are what the potatoes are worth at the present time (December). We shall endeavor to abide by these prices during the season, but should conditions of the market change materially one way or the other we reserve the right to cancel these prices without notice.

Please write us for price on the varieties and quantities you will need if you will require three barrels or more. We will quote the lowest possible prices at all times.

We have the largest and finest stock of choice seed potatoes we ever put in our cellars.

NO POWDERY SCAB! Our seed potatoes have been thoroughly inspected and found entirely free from powdery scab. There has been none of the scab found in Western New York, where all our potatoes are grown.

About Shipping.—The potatoes are shipped in barrels or sacks holding 165 pounds. We can usually ship safely by the middle of March, but not before, except to the Southern States.

If seeds and potatoes are ordered, please state on the order whether the seeds are to be held to go with the potatoes, or to be sent at once, and the potatoes later when it is safe to ship them.

Shipped in barrels or sacks. If you wish the potatoes shipped in barrels instead of sacks please add thirty cents to the price quoted for sacks.
